please keep the traffic and weather channels on the xm satellite radio most people like myself are truck drivers listening to it and it helps us to keep up with the weather so we can drive safer on the roads and the traffic reports helps us to know where not to go to make traffic worse it helps us out both of the channels people still listen to the regular radio all the time for free but business people like truck drivers on the road all the time need channels like this. thank you keep the channels on there reject NAB's petition 04-160
